

Young Members Regional Event - 21./22. February 2020

Dear young members

AFTES-YM and STSym are happy to invite you to the following regional event:

CERN – Site visit and visit of CERN

Since 2018 the construction work for the new Hi-Lumi are ongoing. The so-called Hi-Lumi will increase the efficiency of the existing particle accelerator LHC. The project includes a 60 m deep shaft, a large cavern and a power converter tunnel that is connected with 4 service tunnel to the existing particle accelerator ring.

Beside the visit of this interesting and challenging construction site, we also have the possibility to visit CERN itself and learn more about contemporary physics, the Higgs Boson and the origins of the Universe...

Of course, we also included a social part into the event. After the visit we let the day end with dinner and on Saturday a city game is planned.

Programm:

Friday, 21.02.2020

- 10.00 h Meeting at CERN (final stop of Tram nr. 18)
- Project presentation and visit of the construction site of MARTI AG
- Visit of CERN / Museum
- Travel to Hotel and Check-In
- Apéritif and Dinner

Saturday, 22.02.2020

- Breakfast and Check-out
- City game "Qui veut pister?" - detective game in small groups (duration ca. 2.5h, start ca. 10-11 am, costs ca. 40 CHF/€ p.P.)
(only in French, but we can set up mixed groups and support the ones who are not that good in French)

Important information:

The organizers from AFTES-YM and STSym hope for many participants, an exciting excursion, interesting discussions and simply a great event!

If you have any questions please contact:

Jasmin Amberg (STSym)
(youngmembers@swisstunnel.ch)

Arnaud Taillandier (AFTES-YM)
(taillandier.arnaud73@gmail.com)

The event is supported by:
